SAFETY NOTES

1 Make sure you are 'fit enough' for the category you enter - don't take part if you are injured or feel unwell.

2 Make sure you have the right kit for the event and are comfortable with your personal kit - don't wear new or borrowed kit!

3 Make sure you fully understand the event details, look at the referenced OS maps and know the route, terrain, distances and water points.

4 Make sure you are prepared for remote hilly terrain and changeable weather. Carrying light waterproof/windproof clothing as a minimum is recommended.

5 All bikers/cyclists must wear an approved cycle helmet at all times when cycling.

6 Make sure your bike/cycle is well maintained, safe and up to the event. The Mountain Bike Hill Section is steep, rocky and technical terrain in places.

7 All bikers and cyclists must carry a puncture repair kit and suitable bike repair tools and spares and know how to use them.

8 Use the watering stations and take in plenty of fluid. Carry your own fluids and snacks and take in little and often. Plan for spare food/drink and kit at the Changeover Point.

9 You must co-operate with all Event Officials and Marshals and display your competitor number at all times. Follow the Highway Code on all public roads and respect all other road users.

10 Hill walkers must be prepared for a strenuous, long walk and must be at Garva Bridge for 3.30pm at the latest. You will be checked in and transported to the finish line at Badaguish.

11 You must respect the environment and conservation policy. Take all litter with you and use bins/bags provided particularly at water stations. Stay on the proper tracks at all times - area of concern will be taped off. Follow the Country Code.

12 MOST IMPORTANT - Any competitor withdrawing or retiring after the Start Registration must contact the Event Results Team at Badaguish either in person, via an Event Official or by telephone (see Marshall for telephone numbers) as soon as possible. If you are injured or need help - you must inform the nearest Marshall.
